

Water Quality Committee

Minutes

Convened: 7:00PM November 6, 2008

Members Present: Brad Hastings, Mike Wentz, Gail Fisher and Bill Elving, Chmn.

Old Business: Reviewed last month's minutes.

New business: We are preparing a survey to be sent to Lake Sara Area Residents to determine course of future action and education in the areas of sewer maintenance, lawn care and wildlife control that affects our lake water quality.

At the very least we wish to develop an understanding of the things we take for granted in these areas and put some controls on bad habits.

In addition we want to make residents aware of prevailing ordinances and provide contacts for questions.

Some residents may be unaware they are contributing to water quality problems. Let's get everyone on board and work together to improve the quality of our water at Lake Sara!

Adjourned: 8:30 PM
